Profile Summary

Machine Learning enthusiast with experience in supervised learning, unsupervised learning, and model optimization. Strong understanding of ML maths and algorithms.

Skills

- Python, Matplotlib, Seaborn
- Random Forest, SVM, KNN
- NLP preprocessing, Word2Vec, BERT
- Data Analysis & Visualization

Projects**1. Movie Recommendation System**

Built collaborative filtering-based recommender using cosine similarity.

2. Credit Card Fraud Detection

Handled imbalanced dataset using SMOTE + XGBoost model.

Education

B.Sc Data Science – 8.4 CGPA

Certifications

Google Machine Learning Crash Course
