

**Ria Verma**

Email: ria.verma@example.com | Phone: +91 9876543210  
LinkedIn: linkedin.com/in/riaverma

**Career Objective**

Aspiring Machine Learning Engineer skilled in Python, data preprocessing, model training, and deployment. Passionate about solving real-world problems using ML and deep learning.

**Skills**

- Python, NumPy, Pandas, Scikit-learn
- TensorFlow, Keras, PyTorch
- NLP, Computer Vision, Generative AI
- SQL, MongoDB, Git

**Projects****1. Fake News Detection (NLP)**

Built an ML model using TF-IDF + Logistic Regression achieving 94% accuracy.

**2. Image Classifier using CNN**

Trained CNN on CIFAR-10 dataset with 87% accuracy using TensorFlow.

**Education**

B.Tech in CSE – 8.7 CGPA

**Internship**

ML Intern at DataMind Pvt. Ltd. (3 months) – Worked on model evaluation pipelines.
